

Your First 90 Days

What to do as an Enagic® Independent Distributor

1. Get happy, healthy & hydrated!

Drink lots of Kangen Water® and experience it for yourself. How the water affects a person is different almost every time, so YOU need to drink the water so YOU can build your own story.

2. Share the water!

ALWAYS remember that the MOST EFFECTIVE way to SELL machines is to SHARE the water. Make a list of the people you care about the most, those whose health you would love to see improve, followed by a list of all the people in your life. Start by giving water to these people and see what happens.

3. Get educated!

During your first 90 days as a distributor you want your body to soak up as much water as possible and you want your brain to soak up as much information as possible! Attend as many demonstrations as possible and listen to what is said and how it is said...you will eventually be repeating this information to your own prospects. Attend as many training events as possible and really PAY ATTENTION! Read as many of the recommended books as possible and then read them again! Check out recommended websites and visit them often...you want to know what they have to offer so you can use them as resources in the future for your own prospects.

4. Get a calendar!

It is VITAL that you know what is happening...so make sure YOU seek out information and the ways to get connected. Don't rely on someone else to get you connected! Get yourself a calendar and mark all of events and COMMIT to attending as many demos, trainings, events as possible. The more you attend the FASTER success will find you! Each of these will broaden your knowledge, provide you with the opportunity to talk to and learn from other distributors, give you a chance to meet with and network with other distributors and will CONNECT you to the business side of this project.

These are the suggested actions to take during the first 90 days...take this business seriously and it can seriously produce!!
